## About Me

Experienced in MERN stack web development, combining strong communication, project management, and teamwork skills. Specializes in building scalable, robust systems and APIs, with a focus on thorough testing and seamless integration. Experienced in creating responsive, visually appealing user interfaces using client and server-side JavaScript frameworks.

## Work Experience

Aug 2023 - present

### Client Developer @ FetaTech LLC

Client Software Engineer at FetaTech LLC, specializing in React.js, CSS, and Bootstrap for web development. Responsible for developing and maintaining high-traffic websites, with hundreds of thousands of monthly users. Expertise in creating dashboards, monitoring API quality, and changing UI to code. Committed to building highly scalable and thoroughly tested web applications.

2022 - 2023

### Site Engineer @ Ethiopian Engineering Investment Group.

As a Site Engineer, I monitored construction project progress and prepared management reports. Assessed structural stability of built structures and conducted cost analysis using software like Excel and designed systems using AutoCAD. Oversaw the overall construction process, including managing daily laborers and their tasks.

## Education

Sept 2023 - Feb 2024 → Remote

### Evangadi-Tech Certificate in MERN Full Stack Development

Completed a comprehensive certificate program in MERN Full Stack Development, acquiring in-depth skills in MongoDB, Express.js, React, and Node.js at EvangadiNetworks.

Aug 2022 - Oct 2022 → Addis Ababa, Ethiopia

### LXD Learning Experiences Design Academy Certificate in Learning Experience Design

Completed a course focused on human-centered design, user experience design, digital prototyping, adaptive project management, and user research, equipping me with skills to meet future technological demands while developing softwares and applications.

Sept 2016 - Sept 2021 - Mekelle, Ethiopia

### Mekele University Bachelor of Engineering in Civil Engineering

completed my Bachelors in BSE and took relevant courses for software engineering such as C++, Linear Algebra, Data Analysis using Excel, and system analysis and design using AutoCAD.
